

Do something rewarding and fun?

Join the Blenders Support Team and become part of your partners exciting hobby...

This behind the scenes group help to raise much needed funds to assist the Blenders with travel, uniforms, music and more.

They assist at Blenders functions with wardrobe, make-up and security. And in some cases even with back stage procedures.

Providing supper after each rehearsal is also managed by the support team and a roster system means that you get the chance to provide supper (for which you are reimbursed) a few times throughout the year. You can also assist with serving tea and coffee whenever you are available – help is always welcome.

You don't have to attend every week – but this is a wonderful chance to get to know other members of the support team – and share in your partner's wonderful hobby.
